John Loren Sandford is an author widely considered to be a pioneer in the modern prophetic and inner healing movements. Following 21 years of pastoring churches in Illinois, Kansas and Idaho, he and his wife, Paula founded Elijah House Ministries in 1973. Through the ministry, John has travelled extensively to teach many people the biblical principles of repentance and forgiveness, while highlighting the transforming power of Jesus' death and resurrection. His books, some of which are collaborative efforts with his wife and children, also explore the topics of healing and prophetic ministry.
